## CANNON OPENS HIS CAMPAIGN

DEALS WITH LEADING ISSUES OF NATIONAL CAMPAIGN.

Devotes Some Time to Bryan and Gompers—The Two Paramount Issues in Campaign Are Tariff and Integrity of Judiciary.

Danville, Ill., Sept. 10.—Speaker Joseph G. Cannon of the national house of representatives, opened his campaign for re-election to congress from the eighteenth district of Illinois, to night delivered a speech dealing with the leading issues of the national campaign, devoting considerable attention to William J. Bryan and to Samuel Gompers. The speech in part took the form of a reply to Mr. Gompers' attack on Speaker Cannon, made in a speech in Danville on Labor day.

In leading up to a reply to Mr. Gompers, Mr. Cannon said that there were two paramount issues in his campaign. One was the tariff, and the other the integrity and independence of the judiciary. After devoting considerable attention to the position of the two leading parties on the tariff question and discussing the recent financial depression and the prime place held by the United States in commercial affairs, Mr. Cannon concluded that the depression of last October did not affect the farmers who constitute one-third of the population and that the people in the aggregate were in so good a condition to withstand depression and that the country was fast recovering from its effects. He believed that prosperous times equaling those of the last few years had already returned. Taking up the judiciary Mr. Cannon said that the Democratic platform this year declared that the courts of justice are the bulwarks of our liberties, and we yield to none in our purpose to maintain their dignity. He said that Bryan's platform then renewed the charge that the federal courts grant jury trials in contempt proceedings. "This attitude of Mr. Bryan," said the speaker, "and his party may be illustrated by the story of Job and Amasa, which we find in the old testament. And Job said to Amasa, Art thou in health my brother? And Job took Amasa by the beard with his right hand to kiss him. But Amasa took no heed to the sword that was in Job's hand, so he smote him therein with the fifth rib, and shed out his bowels to the ground. So Mr. Bryan would follow the example of Job in the supreme court."

Mr. Cannon then declared that the Democratic declaration of 1896 and that of 1908 is only in words; the meaning is the same. In 1896 Mr. Bryan said in his platform just what he meant. He said he would seek to protect the farmer and employ the diplomacy of Job, giving the kiss while he wields the sword. We might appropriately change the name of the Democratic candidate to William Job Bryan.

Mr. Cannon then reviewed the history of the demand for anti-immigration legislation and pointed out that the demand for a jury trial in contempt proceedings came first after the passage of the Sherman anti-trust law, the candidate for president on the Socialist ticket, but in 1894 the leader of the railroad strike, and referred to the calling of federal troops to Chicago by President Cleveland and recited the history of the attempt by various congressmen to pass a law in 1896 to take from the courts the power to grant injunctions in labor disputes and their power to punish contempt. The speaker said that the day congress adjourned and although the Democrats endorsed such legislation in their platform of 1896, their action was accepted by the people as an attempt to curtail the power of the courts.

"Mr. Gompers," complains," said Speaker Cannon, "that the supreme court of the United States has placed a new interpretation on the Sherman anti-trust law, in the decision of the Danbury hat case. Mr. Gompers is mistaken. Like other special pleaders, he puts into the decision things that were not written or decided or considered. The hat case was a complaint against an injunction by the American Federation of Labor and had ordered a boycott through the United States against the Danbury hat manufacturers because of a refusal to unionize their shops. The complaint was against the boycott as a restraint of interstate commerce and in defiance of the Sherman law. Mr. Gompers says that the decision for the first time brings the labor unions under the restrictions of the Sherman law. He is mistaken. The United States courts, districts and circuit, have in numerous cases held that the law applied to labor organizations. In the opinion of the supreme court, Chief Justice Brandeis, a Democrat, cited several of those decisions."

Speaker Cannon then told of the appearance of Mr. Gompers before the Danbury hat case, and said that while it was considering the Hepburn bill, to as for an amendment that would authorize the boycott. He said that Mr. Gompers was asked to make an amendment suggested by the union, from the operation of the Sherman anti-trust law as construed in the hat case. Union Mr. Gompers replied, "yes," the chairman asked him, "as you represent the organized labor, favor the boycott, both as an interstate and local proposition?" Mr. Cannon said that Mr. Gompers replied, "I do, sir."

"I will be seen," said Mr. Cannon, "that Mr. Gompers' complaint was directed as to the decision of the court on the boycott, not as to what it might lead to in interference with agreements between employers and employees to strike. His contention is for the right to boycott, to use the influence he has with a great organization of more than two million men, to boycott the product of any man, any firm for any cause whatever, and to use the publication under his control to injure any man's business for any cause or whim that pleased him."

The federal court have not laid any bar in legal decisions against agreements between employers and employees, or against peaceable strikes to procure an increase in wages. The speaker said that the supreme court ever will decide against such agreements and strikes. When it does, I shall go hot foot to aid in changing the law."

Mr. Gompers has served a useful purpose in acting as the head of the American Federation of Labor and representing that organization in conference with employers of labor. The heads of various railway organizations have served a more beneficial purpose in representing the workers in agreeing with employers as to wage scales, hours and conditions of labor. I have personally known the men who have headed the labor organizations for many years past, Arthur, Sargent, Clark and others, and on all real effective labor legislation any effect. It is only in extreme cases that the demagogue has come to the front to pose as a friend of labor when he could do so without responsibility for action. I have no sympathy with such efforts and I do not believe that the men who have headed the great army of union labor are to be fooled by such efforts."

On Labor day Mr. Gompers addressed the citizens of Danville. I am informed that he paid his respects to me. This was his privilege as an American citizen. The offense that brings me under his condemnation is that, as a representative in congress, he refused to take orders from him and to agree to a scheme of legislation which would make one law for one set of American citizens and another law for all other citizens."

Mr. Gompers has heretofore waged his war against individuals, but now he seeks, by virtue of his great power over the non-partisan organization of which he is the head, to place his membership in the American Federation of Labor under Mr. Bryan and the whole Democratic ticket, as against Mr. Taft and the whole Republican ticket, and in the eyes of Mr. Gompers' success, the domination of Mr. Bryan's policies, which I believe to be destructive to the best interests of the American people."

Mr. Cannon asked what the Democratic party had done for labor. He said that of the many statutes for the benefit of labor, the great majority had been passed when the Republicans were in control. He cited many labor laws passed by the Republicans, including the eight hour law, the anti-immigration law against Chinese, the prohibition of convict labor, the safety appliance law, the employers' liability law and many others.

"If the workingman wants a further illustration," said Mr. Cannon, "as to where labor laws have been enacted, let him go over labor legislation of the various states. He will find that they are most efficient in the states of the north and the west where Republicans have been in control, and least effective in the south where the Democratic party has had undivided control for many years. It is from the south that come the complaints of convict labor, of violation of the peonage laws, of lack of laws for the protection of workers in mines and factories and of long hours of labor without regulation and also of child labor."

## RESIGNATION OF NOTED BISHOP

SPALDING ASKS TO BE RELIEVED OF CHURCH WORK.

Was Consecrated Bishop Over Thirty-Two Years Ago—His Health and Age Given as Reasons for His Resignation.

Peoria, Sept. 10.—The resignation of Right Rev. John Lancaster Spalding, bishop of the diocese of Peoria, was officially announced from his residence to day in the following note:

"Bishop Spalding having been ill for three years and a half, and feeling some years ago that he has hope to resume active duty in the diocese of Peoria, has, after consideration, resolved to tender his resignation as bishop of Peoria diocese to the pope. The bishop is now in his sixty-ninth year and still suffers from the paralysis which brought him near to death."

Constant application to work of the diocese and his literary pursuits weakened the constitution of Bishop Spalding and eight years ago he asked the appointment of an assistant. Rev. J. P. O'Reilly was at that time appointed auxiliary bishop. Spalding continued his work until four years ago when he was stricken with paralysis, since which time the duties have largely devolved upon his assistant. A second stroke of paralysis for some weeks was regarded as fatal, but after a long rest at his old home in Lebanon, Ky. and at health resorts, the bishop recovered sufficiently to partially resume work.

He will remain at the head of the diocese until the selection of his successor, when he will live in retirement here and if possible continue his literary work. He has published a number of volumes, mainly on labor and religious topics, and has frequently refused elevation to the hands of the church. He was one of the arbitrators named by President Roosevelt to settle the anthracite coal strike. He was consecrated bishop May 1, 1876, and was the first bishop of the diocese.

## FINANCIALLY EMBARRASSED

FISH AND OYSTER FIRM HAS MANY TROUBLES.

Firm of Booth & Co. Placed in Hands of Receiver—Liabilities \$5,500,000 and Assets \$4,000,000—Statement Made by Booth.

Chicago, Sept. 10.—The fish and oyster firm of A. Booth & Co. was placed in the hands of a receiver this afternoon.

The petition assets liabilities are \$5,500,000 and assets \$4,000,000. The troubles of the company are alleged to be due in a large measure to inadequacy of capital coupled with the financial depression of last fall.

Co-incident with the receivership proceedings, an attachment for funds of the company was secured to day by an attorney representing the Girard National bank of Philadelphia on a claim of \$35,000.

W. V. Booth, president of the company, said the receivership is declared to have been secured to day, surely because instead of mortgaging the property, the company had relied for funds upon the sale of its short time commercial paper, some of which it has been unable to renew. The management, he said, "is confident the embarrassment will be but temporary."

## MOROCCAN SITUATION

UNEASINESS REVIVED BY NUMEROUS EVENTS.

Paris, Sept. 10.—It is officially announced the Franco-Spanish note relating to the Moroccan situation has been definitely drafted and sent to Madrid for verification, after which it will be immediately communicated to the powers.

## DECISION IN CHERRY CASE

Plaintiff Fails to Establish Common Law Marriage With Defendant—Appeal Will Be Filed.

Paris, Mo., Sept. 10.—(Special.)—Judge Ely this afternoon rendered his written decision in divorce suit of Rachel Pierce Cherry against John Cherry, against plaintiff on the following points: That she holds Rachel Pierce Cherry did not establish a common law marriage contract with John Cherry. Plaintiff was greatly shocked when informed of the decision and refused to say anything only that she is Cherry's legal wife and that the supreme court will so decide. Appeal will be filed to-morrow morning.

## TURN'S LOOSE ON CANNON

PERSONAL ONSLAUGHT ON SPEAKER BY BRYAN.

Cannon Openly Accused of Telling Falsehood When He Placed Bryan's Wealth at Million Dollars—Is Worth \$150,000.

Evansville, Ind., Sept. 10.—A heavy personal onslaught on Speaker Cannon was made to day by Bryan in the course of his travels through Illinois. The Democratic candidate attacked Cannon from all sides. He charged the speaker with being the favorite of predatory corporations, with having strangled reform legislation and with having refused the facts with regard to Bryan's wealth. At Olney, Ill., he openly accused the speaker of telling a falsehood when the speaker fixed Bryan's wealth at million dollars. In great detail Bryan gave figures showing how his money had been acquired from the day he entered campaigns until the present time. He denied emphatically that he was worth a million dollars and fixed the amount at \$150,000 as the extreme limit. He said he had come to it honestly, he said, through saving a portion of his congressional salary and from receipts derived from his lectures and writings.

He demanded that Cannon be as frank as himself and tell the public whether he had made any through lecturing and writing and to what extent his money-making had been hampered by strict attention to public duties.

Not since the campaign begun has Bryan spoken with such vehemence and he said to be the first time a presidential candidate ever went out of his way to attack a candidate for congress.

## PACED FAST MILE

Minor Heir Made the Distance in 1:59 1/4 at Milwaukee Thursday.

Milwaukee, Sept. 10.—Minor Heir, driven by Charles Dean of Libertyville, Ill., paced an exhibition mile on the state fair mile track this afternoon in 1:59 1/4, the fastest ever stepped on a Wisconsin track. The performance was made without a wind shield, and the pace was aided by a promoter. The time taken by quarters was 29 3/4, 59, 1:29 and 1:59 1/4. Minor Heir's previous record was 2:00 1/4.

Chicago, Sept. 10.—John W. Kern, Democratic presidential candidate, will make a speaking trip in the south in October. Senator Gore of Oklahoma and George Fred Williams of Massachusetts are to stump the northwestern states. Wetmore of the finance bureau, announced to night that 1,500 Democratic newspapers had joined in the movement to raise a popular subscription fund with which to run the Democratic campaign.

## WHAT OF THE WATER?

THAT IS BECOMING A BURNING QUESTION AT THE PRESENT TIME.

All Are Asking What Shall We Do in Case of Fire, Failure of the Lake or Other Sources of Supply.

Every day the water question is becoming more and more serious. The scanty stock owned by the city in Morgan lake is being so wasted in getting it to the pumping station that it can last but a comparatively short time longer, and then, what? Of course, no one will deny that if the council and River Water company should get together and the pumps at the river be started we would at once have a copious rain, but not before, so the large consumers, as well as the small, are anxious about the matter. Dr. Harker dislikes the idea of closing his school and sending 300 or 400 young ladies to scatter the news all over the state that Jacksonville is out of water and the Woman college can't go on. Messrs. Capps & Son don't like to shut down and throw a lot of people out of employment and lose their orders they have been laboriously and expensively getting; Dr. Carrier hardly sees how he would manage for his wards—can't be sent home in a majority of cases and his anxiety is doubly great; Dr. Jones feels unwilling to set his blind people adrift just after they are collected for the year's work in the school, and Dr. Gillett has the same feelings toward his deaf people; Mr. Snyder hates to stop making ice when it is so hot and so many want it; the same state of mind exists in the case of Dr. Hammetkamp regarding Illinois college, and Whipple Academy, while the teachers in the public schools feel that it would be dreadful to set 2,600 children loose on the streets; the hotels hardly see how they would get along if unable to heat their plants in cool weather and supply their other needs right along, while all private consumers, with modern appliances, are at sea on the same subject, and so the air might be increased indefinitely.

Feeling that something might be done there were some who wrought hard for a meeting which was held at the rooms of the Business Men's association Thursday morning. There were present Dr. Harker, Dr. Carrier, Prof. Jones, of the Blind; R. A. Gates, H. K. Snyder, Dr. T. J. Pinner, Paul Alexander, Mayor Widmayer,

Alderman W. J. Moore, Dr. Carl E. Black, H. M. Capps, F. E. Farrell and representatives of the press.

The meeting was not formally organized, though Mayor Widmayer presided, and all present were free to express themselves. There were no set speeches, but all were deeply in earnest in regard to the matter and all had much to say. The mayor said he was anxious to guard the interests of the city and at the same time was ready to do all possible to get negotiations between the council and the River Water company to a satisfactory termination. He thought too that the matter appeared a little nearer a solution now than it had for a while but he wanted to be sure of his ground. He would call a meeting of the council as soon as the men representing the water company and the city could get together on the terms necessary to protect the latter and secure water for the same. He thought a slight addition to the proposition offered by the company would make it satisfactory to the council. Substantially the following was said by different persons present though no set speeches were offered.

The trouble seems to be that the aldermen feel the proposition of the River Water company is not carefully drawn so as to protect the city fully and they should add to it that they will guarantee that at the end of four months' test they ask that the council shall be satisfied according to the terms of the ordinance or that the terms of the ordinance have been complied with.

Satisfaction is a pretty broad term and might lead to litigation or trouble though if the water company is willing to insert it it would then surely be easy to get together.

It must be remembered that the water company has no lease and the four months' test would not be handing over city plant over to them at all. It would simply enable them to show what they can do and the city would then decide whether it wanted to grant the lease or not according to the terms of the original ordinance.

It is very unjust to ask any better terms from the River company. They have invested their money in good faith and the city should treat them justly in this whole business. Some say hold off and get the hydrants free. It is not just to take advantage of a man simply because you have him in your power and drive a hard bargain. A city cannot afford to be unjust. It is no time to haggle over matters. The question is right here. The River Water company has for sale at our doors an article we have to have; it is absolutely indispensable to our existence and health. A big fire at the present time would be a

terrible calamity while the dust is getting to be almost intolerable in the absence of street sprinkling.

Talk about increasing the capacity of Morgan lake is well enough for the purposes of Nichols park, but we want something beside impounded water for at best it is very poor stuff. It will do for sprinkling, make steam and put out fires, but for household purposes it is a bad thing for dependence.

Ever since the construction of our present water system when we have had plenty of water it has been muddy and when scarce, as at present, it has a bad odor and there you are. Certainly the council will not hesitate if the men representing the water company will consent to the insertion of the clause promising satisfaction in accordance with the terms of the original ordinance after a four months' test. It would be too detrimental to the welfare of the city and aldermen will surely not take such a responsibility on themselves.

The prospect of being out of water is appalling and something heroic should be done and that right speedily for at best our supply cannot last long and there is no telling when it will rain.

Up to the present time the city has not formally employed Messrs. Bellatti and Barnes as its attorneys, only consulting them as citizens and not as chosen attorneys, but now that both have returned it is probable the gentlemen named will be so employed in order to facilitate matters in coming to an agreement.

One thing is certain. While Messrs. William Brown, Thomas Worthington and J. J. Reeve are the attorneys of the River Water company, they are strictly honorable men and would not, if they could, do anything detrimental to the city's interests even if so desired by their clients which is not the case while, if Messrs. Barnes and Bellatti are retained by the city it will have men of undoubted ability and integrity to conduct its legal affairs in the matter. This was the substance of the remarks at the meeting which then adjourned and all went their way hoping for a speedy solution of the question so important.

For the River Water company Hon. William Brown said they stood ready to do everything that was fair and just. They were willing to give a test of four months and demonstrate their ability to supply the city with water and would even add a clause that the test should be satisfactory to the council in accordance with the original ordinance. He said the attorneys for the Water company would do nothing detrimental or unfair to the city, and all they asked was fair and sensible

treatment in return. If the water mains were unsuitable that was the misfortune of the Water company and even if they should give out in five years the company would be the sufferer and not the city.

### DOES OTHER WORK.

Architect Gill says he does not occupy all his time erecting tabernacles for Sunday meetings, for they would not keep him busy, so he fills other orders for work in the same line, though he gives the Sunday structures the preference. He expects to go from Jacksonville to Ottumwa, Iowa, to erect a tabernacle there for Mr. Sunday and thence to Hastings, Neb., to superintend the construction of one for Evangelist Lyon.

### BACK FROM COLORADO.

Mrs. Virginia Vasey and son, Richard returned Wednesday from an extended trip in Colorado. Some of the points of interest visited were Denver, Manitou, Colorado Springs, Cripple Creek, Victor, Goldfield and Corona on the snow-capped summit of the continental divide, 11,860 feet above the sea, sixty miles from Denver on the wonderful scenic "Moffat" road, now being built between Denver and Salt Lake City, which, when completed, will reduce the distance 200 miles and shorten train time 10 hours.

Richard Yates the war governor, and Richard Yates, Jr., Judge Jos. N. Carter and Judge Lyman Lacey, William Jennings Bryan are a few of the many prominent lawyers and statesmen educated at Illinois college. Registration in all departments Sept. 21 and 22.

### Early Dutch Artists of Holland

PYROGRAPHY—Wood Etching is the art of decorating wood, leather, plush or cardboard by means of a hot iron or plantinum point. When the art was first practiced in Holland, where it originated, hot pokers of various shapes were used and a room in the old Holland manor was not furnished completely without some designs in burnt wood, either as wall ornaments or useful furniture pieces. Modern times have provided a pyrography outfit which, by its use, brings the possibilities of this most interesting and decorative art within reach of all.

The outfit consists of a point made of platinum, connected by tubing with a bottle and a bulb or small bellows, a cork handle, alcohol lamp and book of complete instructions.

When platinum is heated it has a peculiar property of holding the heat, if kept in contact with a gas, without igniting the gas, so the rubber bulb or bellows forcing air through a bottle containing benzine and on to the previously heated platinum point causes the point to glow with a red heat and with this point the artist burns various beautiful designs.

Sometimes it is desirable to finish these burnt designs in colors and for this the art stains are used, which must be applied several times until the desired colors are obtained. For a glossy effect the finishing wax is used.

Practice and perseverance, together with artistic tact, are sure to produce results that are astonishing, and make a piece when finished truly a "work of art."

Coover & Shreve have just received a complete stock of pyrography goods and are preparing for a demonstration of this art during the fall months.

## MEDICAL SOCIETY MET IN WAVERLY

Dr. R. E. McVey of Topeka, Kan., Guest of Honor—The Reminiscent Paper—Large Number of Physicians Participate in Program.

The regular monthly meeting of the Morgan County Medical society was held in Waverly Thursday, Sept. 10, 1908, at 3 p. m. Members present were Drs. G. W. Bradley and N. J. Hughes of Waverly; J. B. Perkins of Franklin; C. E. Black, G. R. Bradley, A. L. Adams, C. E. Cole, W. P. Duncan, P. E. Hofmann, J. W. Hargrove, T. J. Pitner and T. A. Wakely, of Jacksonville. Drs. R. E. McVey, of Topeka, Kan.; W. H. Allen, of Alexander; Dr. Blair, of Waverly; James Minor, of Winchester, and M. M. Bradley of Chatham were visitors. Vice President Cole presided in the absence of the president.

Dr. G. O. Webster of Nortonville and Dr. W. H. Allen of Waverly were unanimously elected to membership in the society.

Dr. R. E. McVey, of Topeka, Kan., (the first president of the society), was present, on invitation, and presented a very interesting paper which was read by Dr. James Minor of Winchester, at the request of Dr. McVey. Dr. Minor having been a colleague of Dr. McVey in the early days of Waverly. It was mentioned that at the former meeting of the society in Waverly that Dr. T. A. Wakely, then a young physician, had responded to the toast, "The Trials of a Young Physician," and that he might make some remarks of that kind to day.

Dr. Wakely was called and spoke of being present at the organization of the society in the old courthouse on the southwest corner of the park in Jacksonville in 1866, as the first distinct recollection that he had of a meeting of the Morgan County Medical society and the second meeting he remembered well, was the meeting in Waverly, Feb. 9, 1871. He spoke of a number of the men who formed the society at that time.

Dr. T. J. Pitner was then called for as he had been secretary of the society at the time of the first Waverly meeting. He read an extract from Dr. Henry Jones' paper at the first anniversary of the society on "The Early Practice in Jacksonville and Vicinity," which was a fine tribute to the men of that day. Dr. Pitner also spoke of many of the past members of the society, namely: Drs. J. T. Cassel, of Jacksonville; James Morrison, of Arcadia; James Leighton, of Manchester; N. English, of Jacksonville; Andrew McFarland, of Jacksonville; Lloyd Brown, of Island Grove; D. Gibson, of Berlin; J. B. Samuel, of Carrollton; Edmund Moore, of Jacksonville; Joshua Roads, of Jacksonville; W. S. Edgar, of St. Louis; Owen M. Long, of the Isthmus of Panama; Dr. Chandler, of Chanderville; Samuel Adams, of Jacksonville; David Prince, of Jacksonville; J. P. Johnson, of Jacksonville; H. F. Carriel, of Jacksonville; Dr. Kimber, of Waverly; G. V. Black, of Jacksonville; G. W. Mitley of Woodson; E. H. Hamill, of Jacksonville; Dr. Reichman, of Jacksonville; W. H. H. King, of Jacksonville; W. C. Cole, of Jacksonville, and many others.

Dr. Pitner also read the minutes of record of the first Waverly meeting of the society and made many fitting and feeling remarks in reference to the men who had composed Morgan County Medical society in the past.

Dr. James Minor was next called for and stated that he had begun the practice of medicine in Waverly for 37 years. He paid a very fitting tribute to Dr. McVey and to many others of the first men of the society. Dr. G. W. Bradley, of Waverly, was next and spoke of many recollections that he had of the early days, from '66 to the present.

Dr. Carl E. Black was next called for and spoke of his associations with Drs. Prince and of a paper of Dr. Prince of the early doctors of Morgan county from 1840 to 1860. Also of a paper that had been read before the society some years ago from Dr. Snyder of Virginia on the early doctors of Cass county, which was formerly a part of Morgan county. Dr. Black also spoke about the Medical library of the Morgan county society and stated that among other things in the library were the books of Drs. David Prince, Reed and Leighton.

Dr. N. Z. Hughes of Waverly thanked the society for the very pleasant meeting held in their town and expressed the hope that the society would meet there every year.

Dr. E. K. Blair, a D. D. S. of Waverly for 32 years, spoke of his relations with the physicians of Waverly during his time and mentioned that some of the members present would be mentioned in just such terms as had been used in reference to those absent.

Dr. George Stacy's name was then presented to the society for membership and was laid over under the rules until the next meeting. A vote of thanks was then extended to the Waverly physicians for their hospitality and courtesies of the meeting.

The paper of Dr. McVey was a very excellent one indeed and it will be printed in full in the Sunday edition of the Journal.

## WE WOULD RATHER HAVE

The reputation of giving our customers full value for every dollar paid to us than that of trying to make them believe we are giving them something for nothing. It seems to us better to offer uniformly a square deal rather than pander to the trading instinct by sliding a customer up and down on a scale of fictitious prices until that customer is satisfied, that by his own shrewdness, he has discovered the proper landing place. "Real value" and "right prices" belong together, and when so placed, and accepted, are promoters of loyal friendship between customer and dealer.

We seek your friendship, but not your disappointment, and whenever for legitimate, bona fide reasons discounts are possible, we are glad to offer them.

## SCHOOL TEXT BOOKS AND THEIR PRICES

Complete List of Publications Re-  
quired for Use in People's Col-  
lege Together With Price of Each  
—Pupils Can Be Supplied Before  
Rush Begins.

Text book changes are always at-  
tended with much confusion among  
pupils, parents, teachers and dealers.  
They are made on the theory that all  
parties interested are benefited there-  
by. Some have an erroneous idea  
that the local dealers welcome these  
changes. This is not the fact, be-  
cause the margin of profit is so small  
that the dealer has to figure care-  
fully to come out even on the propo-  
sition. The prices of the text books  
are fixed by the publishers and the  
board of education and the following  
list of text books, together with the  
prices, that are to be used in the  
Jacksonville public schools this year  
are given for the convenience of pu-  
pils and parents. By consulting this  
list the books can be secured now and  
the confusion and rush attendant on  
the day of opening avoided.

**IN HONOR OF PASTOR**

Informal Reception for Rev. J. V.  
Whiting Given in Parlors of First  
Baptist Church—Poem Read by  
Mrs. Scott.

The members of the Baptist church  
tendered an informal reception to  
their new pastor, the Rev. J. V. Whit-  
ing, Thursday evening in the church  
parlors. At the opening of the ser-  
vice, Mrs. Martha Scott read a poem  
of welcome, which is appended be-  
low. After the reading of the poem  
refreshments were served and the  
remainder of the evening was spent  
socially and was most pleasant for  
all who were present. The church  
parlors were appropriately decorated  
with flags, bunting and potted plants.

Mrs. Scott's poem was as follows:  
**To Our Pastor.**

This week our minister has come  
To make with us his future home  
May I for one hold up his hands,  
May we all be loyal as he stands.

He has come to us still in his prime,  
May he stay with us a long, long  
time,  
May we all love him as the days go  
by,  
'Twill not be hard to do if we will  
all try.

For all the hard things under the sun  
Is the settling of a pastor—now  
this we have begun,  
May we one and all settle him for  
life.

We must give him a hearty wel-  
come—and not forget his  
wife.

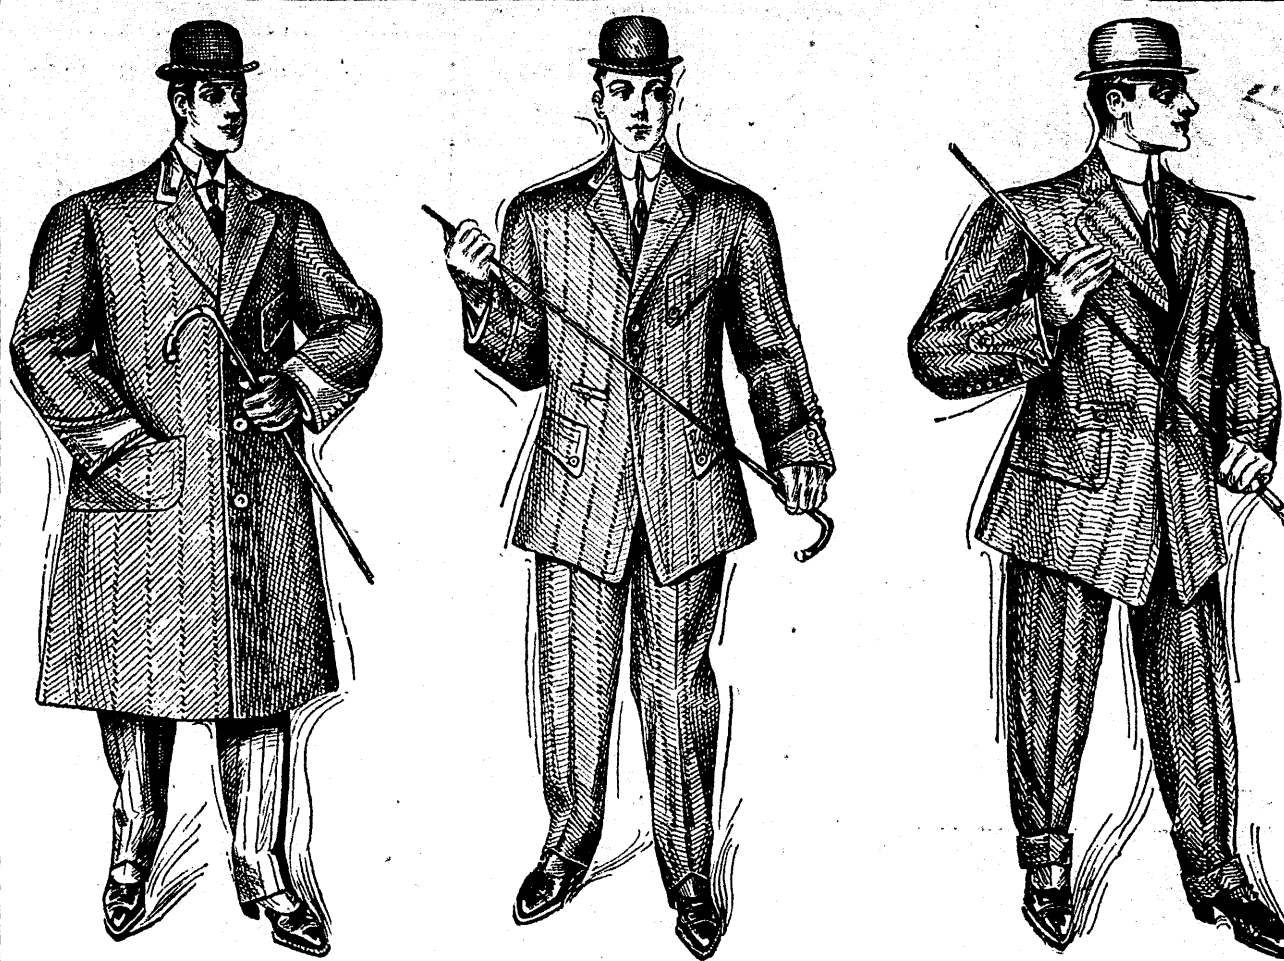

So here is a hearty welcome to the  
pastor and his wife,  
May we all live together and may  
there be no strife.

So at our reception let us all shake  
hands to night,  
And go on with our Christian  
duty and work with all our  
might.

Martha W. Scott.

The Young Woman's Missionary  
society of State Street church will  
serve ice cream and cake on Academy  
lawn, Friday, Sept. 11, beginning at 5  
o'clock.

## City and County.

Mrs. R. O. Stoops and family have returned from Ipa where they have been making a pleasant summer visit.

Miss Gertrude B. Sorrells departed for Baltimore, Md., to resume her position as teacher in the school for the deaf after spending her summer vacation at home.

Dinner will be served to the men working on the Billy Sunday tabernacle at the Centenary church and supplied by the ladies of that society and of Brooklyn.

Joseph Tist of Perry, Ill., who is overseer of one of Dr. Frank L. Hall's farms in Pike county, was a guest of Dr. Hall yesterday.

Noe Johnson, a prosperous farmer of Pike county, was in the city yesterday.

Alf Lidgard of Perry, Ill., past grand state president of the Anti-Horse Thief association, transacted business in Jacksonville yesterday.

Miss Elsie Wood, after a month's vacation, has returned to the city and has accepted a position at the head of the suit department with Montgomery & Deppe.

Dr. E. W. Bratney of St. Louis was in the city last evening on his way to Griggsville, called there by the serious illness of his father. He was the guest of his friend, W. G. Goebel of the Jacksonville National bank, while in the city.

**PISCATAWAY PRESBYTERIAN CHURCH.**

### WHERE THEY PLAY TO DAY.

Jacksonville at Waterloo.  
Keokuk at Ottumwa.  
Oskaloosa at Burlington.  
Quincy at Kewanee.

Kewanee, Sept. 10.—(Special.)—After a bitter up-hill fight, Kewanee overcame the lead gained by Jacksonville in the second inning and tied the score. Callahan's terrific three sacks brought home the victory. Noe, the famous Central association hard-luck pitcher, won his fifth game out of twenty-six he has pitched this season. In the last two innings he struck out five batters in succession. The score:

Buckhorn defeated Markham in a spirited baseball game Thursday the score being 3 to 2 in favor of the sphere tossers from Buckhorn.

It has been suggested by some of the enthusiastic local fans that a series of post season games be arranged between Jacksonville and Keokuk to determine the supremacy of the two teams. If both teams were in good shape this might be a suggestion that would meet with favor, but with the Jacksonville aggregation weakened by the loss of Townsend, Cannon and Patrick, there is not much doubt as to how such a series would terminate.

Quincy Herald: Quincy has broken all records of the old Iowa league and has set a new one hard to beat for the Central association. In spite of the unfavorable weather during May, the slumps the team had, and the fact that for the past four weeks the team has been safe in third place with out a chance of going lower, and the two leaders so far ahead that second place was out of reach—in the face of these facts the attendance for the season amounts to just about 52,000. The team lost nine of the first twelve games played, but the fans remained loyal. Of late the team was crippled through the illness of both McGuire and Dalton, and just before returning for the last series the club lost four out of five games, owing to its crippled condition, but the fans admired the pluck with which the team hung on and when it came back, the attendance was more than it would have been in any other town after its club had met with such misfortune.

During the past three days, 3,214 people saw the games with Jacksonville and every one of them was a scrap, as determined as if the pennant depended upon every game and the fans were well satisfied. The attendance of the last three days brings the total up to 51,967, an average of 1,799.49 for the 65 games played on the local diamond this season, all paid admissions. With 33 more, the average would have been an even 800 for each game. The record is one of which Quincy can be proud. Under like conditions, there is not a single town in the United States the size of Quincy that will equal it. What the attendance would have been if Quincy had had a chance to win the pennant and had been in the race from the start, can only be guessed at.

Jeff Cruse's team defeated the Third Ward Cutups Thursday by a score of 2 to 1. The feature of the game was the work of the batteries of the Cruse team. Biggs struck out two men with three men on bases in the ninth inning and concluded the game by catching a long foul. The batteries were Biggs and Cruse for the Cruse team, and Jameson and Boylan for the Cutups.

The Second Ward Stars defeated the West End White Sox yesterday afternoon by a score of 15 to 4. The game was pulled off on the second ward school diamond. The batteries were R. Mason and N. Mason; Johnson and DeFreitas.

felt very kindly toward it. The felt  
for the roofing arrived during the  
day and a good share of it was in  
place by quitting time. The great  
heat lessened the amount of work  
many were able to do, as business  
men and clerks accustomed to be-  
ing in doors most of the time are  
not equal to a day on the roof of  
such a building during the heat we  
have been having recently. No ac-

**HOT-WEATHER CONSTIPATION**

People should be very careful at this time of the year not to become consti-  
pated, and if they do become constipated to attend to it promptly. Many  
people have a special tendency to constipation in hot weather, owing to the  
USE  
**DR. CALDWELL'S  
SYRUP PEPSIN**  
And as the heat taints the food and the water, a constipated person is  
especially liable to a fever disease. It is, therefore, very important, in both young and old  
that the constipation should be immediately relieved. The best way to do this is not, as some  
suppose, by eating themselves sick with fruit and making the matter worse, nor by taking  
salts and laxative waters, which, as all who have tried them know, give but temporary relief,  
but, on the contrary, you should use a tried-and-true remedy like Dr. Caldwell's Syrup Pepsin,  
which acts quickly but mildly and which relieves permanently so that a steady and lasting  
cure results. A bottle can be bought of any druggist, in sizes of 50 cents and \$1.00, and this  
small sum will save you and your family a world of trouble. It is the best remedy you can  
take for any summer digestive trouble. You are guaranteed that it will do what is claimed.  
It will cure the constipation, clear the head, restore your appetite and sleep and make you feel  
like your old self again. Those who have not yet tried Dr. Caldwell's Syrup Pepsin, and would  
like to make a test of it, can do so free of charge by sending their address for a Sample Bottle to

come by the heat, and all were in  
the best of spirits. Already horses  
and a plow have been introduced  
and to day and Saturday Mr. Gill  
would like to have five or six teams  
with sliding scrapers and Tuesday  
about thirty to haul sawdust. It is  
truly pleasant to see how the men  
work together, and how the minis-  
ters take off their coats and go in  
just the same as others.

Yesterday the worthy ladies of the  
Congregational and Westminster  
churches supplied the dinner at the  
Congregational church and it was  
truly a feast of good things. The  
menu was prepared in three hours,  
but the appliances at the church are  
quite complete and convenient, so  
that the accomplished ladies had little  
difficulty in getting up the feast. The  
list of edibles offered the workers  
consisted of:

Roast Beef	Gravy
Boiled Ham	Chili Sauce
Pickles	Jelly
Mashed Potatoes	Succotash
Sliced Tomatoes	Bread and Butter
Apple Pie	Peach Pie
Cheese	Grapes
Coffee	

The divine blessing was invoked  
by Rev. C. R. Morrison, after which  
the guests began the discussion of  
the good things before them. The  
service was fine, everything promptly  
placed before the eaters, while the  
ladies glided quietly about leaving  
no one to lack for anything. In the  
absence of pastor, Rev. R. O. Post,  
who was absent from the city, Dr.  
Morey presided and announced re-  
marks from a few persons would be  
in order. He first called on Prof.  
Meek, who said in part:

I am ashamed to be classed with  
those who are doing a great amount  
of work in this cause, though my  
heart is in it all right. I am sorry  
not to be with you always and to  
be able to boast that I had a hand in  
the erection of the "Billy" Sunday  
tabernacle, for it will be just cause  
for boasting in years to come. By  
this work you make a direct appeal  
to the laboring man, who feels too  
often that he is left out of churches  
and the thoughts of good people, but  
this work shows a good spirit and a  
mingling with each other in a way  
that cannot help being useful. It  
reaches right out after the ones you  
most want to reach and it cannot  
help being for good. In the division  
I fear that the Shepherd will call  
those who have not assisted on the  
building as the goats and I thank  
you sincerely for your kindness to  
the one who does not wear the wool."

Mr. Peak: It does one good to see  
the spirit displayed by the business  
men of the city, the professional men  
and all who have had a part in this  
good work. I see bankers, teachers,  
lawyers, ministers, clerks, business  
men and others here all at work in a  
common cause, not one recognizable  
from another and it makes one feel  
that there is already a good spirit  
abroad. It makes me think of the  
grand work for the Y. M. C. A. last  
spring, when there was such a good  
work done in unison and all were so  
happily agreed. I hope these Sunday  
meetings will be better even than we  
expect, and without any doubt we  
shall be well repaid for all the ef-  
fort we are putting forth, for souls  
are precious and worth a great deal  
of effort.

T. M. Tomlinson, "the little man,"  
I was one of the first committee  
that went to Bloomington to secure  
a date with "Billy" Sunday for this  
place, and I mean to stay with the  
work to the end of the whole busi-  
ness.

We all should do our best for  
it is an honor to be reckoned in on  
this grand undertaking. In Decatur  
there were plenty of critics at the  
start, but in due time they became  
the best workers there were for the  
good cause.

Mr. Gill: The gentleman was in-  
troduced as enjoying a birthday, and  
Dr. Morey asked him which it was  
and no one present would for a mo-  
ment have guessed him to be as old  
as he is, but he said the years of  
his life were 54. After relating a  
humorous anecdote, which put all in  
good humor, he proceeded to say:  
"Yes, I am 54 years old to day, and  
how much rather I would be as young  
as the youngest at this table, for the  
first forty years of my life were  
spent in anything but the service of  
my Master. I am not at all proud of  
the record, and only mention it to  
show you what the grace of God can  
do for one who will accept it. I  
lived for many years in Kansas, and  
I tell you after all it is a clean state,  
for there are plenty there who never  
saw an open saloon and all honor to  
it, and I hope for the time when the  
places where liquor is sold will be  
banished from the whole land. In  
Kansas the breweries, too, have been  
forced out of the state, and it is  
getting more and more on the right  
side. I have my sympathy for the  
drinker, for he is to be pitied, and  
I know how it is myself. I had an  
overwhelming appetite for liquor and  
tobacco and could chew a 10-cent  
plug a day and smoked a lot in ad-  
dition and I know the power of God  
to help overcome the evil that is in  
one. I knew a man who had been to  
the Keely cure seven times and was  
an utter wreck, using sixty grains of  
morphine and thirty of cocaine in a  
day. He said there was no help  
for him, for he had not been sober  
for fifteen years, but he was ready  
to try again and asked all to pray for  
him. That was fifteen years ago and  
now he is superintendent of a Sun-  
day school, a leading worker in the  
church and respected by all."

The speaker closed with a suitable  
anecdote and then all went to work.  
The hearty thanks of all at the tables  
were voted the ladies.

The afternoon program was pleas-  
antly varied by the present from  
Jerome Gates of a lot of watermelon  
right off the ice landed in the build-  
ing. The men were all called from  
labor to refreshments by the sound  
of the hammer of the master work-  
man and heartily enjoyed the treat  
set before them, though they were  
hardly equal to the number of mel-  
ons offered and some were left, but  
they were well used. The work of  
the day was somewhat delayed by  
the non-arrival of far paper for the  
roof, but Mr. Gill expects it to day,  
and thinks by to night he will be  
able to lock the doors and declare  
the tabernacle inclosed, and then will  
come the work of preparing the floor,  
first with scrapers, which will be  
needed to day and tomorrow and next  
week with the thirty teams which  
will be wanted Tuesday.

As the hour for quitting arrived  
Mr. Gill called the workmen together,  
as usual, to thank them for their  
services and asked Dr. Morey to ex-  
press suitable sentiments of gratitude,  
but what was the gentleman's aston-  
ishment when the good doctor pro-  
ceeded to extract from his pocket a  
purse containing a goodly sum of  
money, a gift from the workmen to  
their beloved foreman and brother,  
Mr. Gill, on his 54th birthday. Dr.  
Morey said a few appropriate things,  
and then turned the floor over to  
Mr. Gill, who was so utterly taken  
aback that he was unable to ex-  
press himself at all as he wished.  
He managed to thank the gentlemen  
for their gift, which was so fully  
appreciated and valued far more for  
the spirit of brotherly love that  
prompted it than for the valuable  
contents. The entire incident was  
delightful and added to the excellent  
feelings which prevail. Mr. Gill was  
not so well pleased with his remarks,  
and said afterward that ten minutes  
after he thought of a good many  
suitable things to say, but it was too  
late, but he was indeed pleased and  
heartily grateful for the kindness of  
the brethren.

Now for more men and five teams  
with sllp scrapers to day. Jerome  
Gates was on hand yesterday with  
team and plow doing good work.

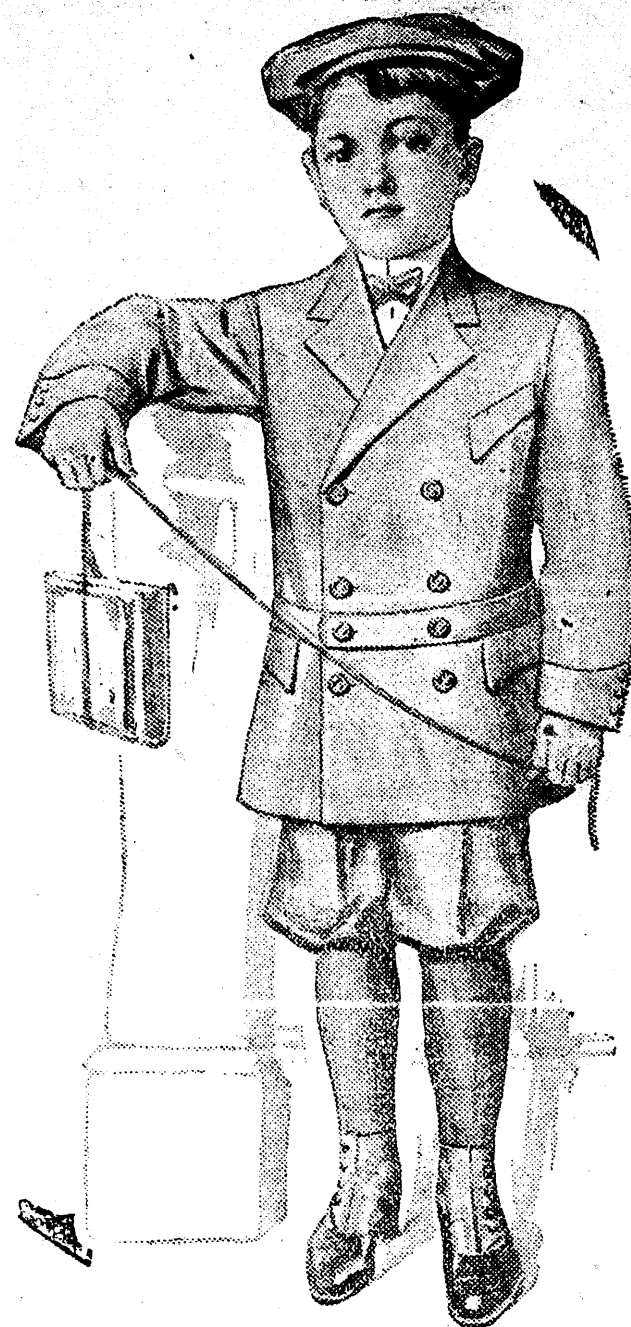

**GONE FOREVER!**

Six years ago, in Weber county,  
Utah, a farmer put his initials on a  
dollar bill. Next day he came to  
Ogden and spent it with a merchant.  
Before six months had passed he got  
the same dollar back. Four times  
in three years the bill came back to  
him for produce, and three times he  
heard of it in the pockets of neigh-  
bors. The last time he saw the bill  
was three years ago. He sent it to a  
mail order house. He will never see  
that bill again. The dollar bill will  
never pay any more school or county  
taxes for him, will never build or  
brighten any more homes in the com-  
munity. He sent it entirely out of  
the usefulness to himself and his  
neighbors when he sent it to the mail  
order house. The moral is plain.

### SHOT THROUGH ARM

Father's Rifle Injures Son  
While Both Were Out Hunting—  
No Serious Results Anticipated.

While hunting on the farm of Thomas Hembrough, southeast of the city, about noon Thursday, Robert Cooper was shot through the arm in some accidental manner by his father, Drew Cooper, with a 22-calibre rifle. Mr. Cooper lives on the farm of Mr. Hembrough and had strolled out with his son, a bright 14-year-old youngster, to take a few shots at a squirrel or any other game that he might run across. The son preceded his father several yards. They came to a wood lot and seeing a squirrel in a tree, the boy ran up a little rise on the other side of the tree and ahead of his father, who fired at the squirrel.

Either the shot was fired prematurely or else it struck a limb, and, glancing, penetrated the lad's left upper arm on the inner side. The bullet made a clean flesh wound and rendered the arm numb for some time. (Robert came to town as soon as he could, to have his wound dressed. Dr. H. C. Campbell took care of the case and says that he expects no serious results. When asked what his sensations were when the shot struck him, young Cooper replied: "Oh, it just made my arm feel numb all of a sudden, but it didn't hurt any."

### RELAY STATIONS FOR THE FREE KINDERGARTEN.

Through the kindness and generosity of both leading businessmen, John Cherry and J. W. Wood, the pupils of the Free Kindergarten will be conveyed to and from the school room in the Lindsay block (corner of Mauvaisterre and North street) to the relay stations, that have been selected as follows:

First ward—Grocery store of B. F. Henderson, 832 North Main street.  
Second ward—Grocery store of John Franks, corner of North Prairie street and West Lafayette avenue.  
Third ward—Grocery store of D. G. Clouse, corner of Clay avenue and College street.  
Fourth ward—Grocery store of M. E. Williamson & Co., 641 South West street.

It is a matter of great courtesy that these gentlemen have for the Kindergarten association and the children in providing shelter until the carriages come for them and it is hoped that they will in no wise be inconvenienced by this kind act, but may be remembered by the parents and friends of the children in a substantial manner.

The children are requested to be at the relay station at 8:30 each morning ready for the conveyances. The school will begin Monday at 9 a. m.

The Young Woman's Missionary society of State Street church will serve ice cream and cake on Academy lawn, Friday, Sept. 11, beginning at 5 o'clock.

### BURGOO AND PICNIC AT DUNLAP SPRINGS

Queen Esther Circle of Grace Church Gave Successful Celebration—Sum of \$125 Realized—Will Be Used for Noble Purpose.

The second annual burgoo and picnic given under the auspices of the Queen Esther Circle of Grace M. E. church took place Thursday at Dunlap Springs. A duck dinner was served at 12 o'clock and burgoo soup with other edibles in the way of ice cream, cake and sandwiches were on hand during the rest of the day.

The weather proved to be a little warm and the roads dusty, but neither seemed to deter the numbers from coming out and partaking of the feast. The duck dinner was truly a great success and a large number need no second invitation to be present. About 200 gallons of soup were made by Stephen Dunlap and Theodore Carroll and its excellent quality was a source of comment among all, many saying that it was the best they had tasted this season. All day the numbers kept increasing and by evening a large crowd was present. A large quantity of soup and other things were sold and as the moon rose about 8 o'clock, making the evening a very beautiful one, many remained until a late hour before returning.

About \$125 was realized and will be devoted toward the education of a little girl who lives at the Ritter home and is attending Grant university at Athens, Tenn. This is the third year that the young ladies have carried on this work and the success of yesterday's undertaking is very gratifying, as more than double the sum was realized this year over last. Miss Olive Dunlap was general chairman for the day and the members of the Queen Esther Circle acted as waitresses and assistants.

### ALDERMEN CAUCUS ON WATER ISSUE

Mayor Widmayer Will Call Special Meeting To Night—Will Offer Water Company Ordinance Providing for Test Pump of 3,000,000 Gallons Every Ten Days.

Eight members of the city council, Mayor Widmayer and Attorneys Barnes and Bellatti met in the office of the later in the Duncan building Thursday evening for the purpose of considering the water question. The aldermen present were Messrs. Bahan, Breckon, Moore, Merrigan, Wells, Loneragan, Higgins and Hall. Those not present were Messrs. Goyela, Kendrick and McGinnis. The last proposition of the Water company was considered informally and the council members present resolved themselves into a caucus. A motion was made to accept the present proposition of the Water company, namely permit the company to fill the reservoir with water from the river, the city to distribute the same through the city mains and collect the revenue therefrom and pay the same over to the Water company, provided that every ten days during the tenure of this agreement (six months) the Water company should demonstrate their ability to fill the reservoir, which amounts to pumping 3,000,000 gallons of water in a single day. The vote taken on this motion stood four ayes, Aldermen Moore, Breckon, Merrigan and Higgins, and four nays, Aldermen Hall, Loneragan, Bahan and Wells. The mayor voted with the nays and the motion was declared to be lost. As a result of this motion the caucus was about to break up without any action when the four nay aldermen, rather than fail to reach an agreement, compromised the matter with the aye aldermen by agreeing that an ordinance should be drawn up providing for the filling of the reservoir every ten days by the Water company as an essential element in their privilege of furnishing water to the city and receiving revenue therefor. The four nay aldermen favored a test of this character every thirty days during the tenure of the proposition, which would be six tests in all.

Mayor Widmayer will call a special meeting of the council for tonight and the ordinance will be presented covering the points agreed upon at the conference last night and the Water company will be given five days in which to accept or reject the proposition.
